Mutual Non-Disclosure & IP Assignment Agreement

Project Green (AI Digital Twin for Accounting Firms)

Final Agreed Version — v5 | March 17, 2026

This Agreement incorporates all amendments from Leavenworth v4 (March 13, 2026) and Knutsen v5 redlines (March 17, 2026), as verbally agreed by both Parties. This is the final agreed version for execution.

Preamble

This Mutual Non-Disclosure and IP Assignment Agreement ("Agreement") is entered into as of March 6, 2026 ("Effective Date") by and between:

Kristopher Knutsen ("Knutsen"), an individual residing in the State of Colorado, serving as Board Member of Project Green; and

Michael Leavenworth ("Leavenworth"), Founder of Project Green, an individual residing in the State of Florida, acting on behalf of Project Green, a Delaware C-Corporation in formation ("Company").

Knutsen and Leavenworth are each referred to individually as a "Party" and collectively as the "Parties." Each Party anticipates disclosing Confidential Information to the other in connection with Project Green. In any given disclosure, the Party disclosing information is the "Disclosing Party" and the Party receiving information is the "Receiving Party." Both Parties are simultaneously bound by the obligations of both roles.

The Parties acknowledge that Knutsen's role on the Company's advisory board is advisory and non-fiduciary in nature. Knutsen does not owe fiduciary duties to the Company by virtue of this advisory relationship. Accordingly, the confidentiality and IP provisions in this Agreement constitute the primary contractual framework governing the protection of Confidential Information and intellectual property, and both Parties agree to strictly comply with such obligations.

In consideration of (i) the mutual exchange of Confidential Information, (ii) Knutsen's continued appointment as Board Member under the Terms Memo, (iii) access to each other's Confidential Information including source code, business plans, technical documentation, and cybersecurity expertise, (iv) the opportunity to perform Services for the Company, and (v) other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

This Agreement supplements and is incorporated into the Board Member Terms Memo dated February 22, 2026 ("Terms Memo"). In the event of conflict, this Agreement controls with respect to confidentiality and intellectual property matters.

---

1. Definitions

1.1 Confidential Information

"Confidential Information" means any non-public information disclosed by either Party to the other, in any form or medium (oral, written, electronic, or otherwise), that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of disclosure. Confidential Information includes, without limitation:

- Business plans, financial projections, revenue data, and pricing strategies;
- Software, source code, algorithms, AI/ML models, training data, and system architectures;
- Security frameworks, compliance documentation, policies, and methodologies;
- Customer lists, prospect data, and partnership agreements;
- Product roadmaps, feature specifications, and technical documentation;
- Personnel information and compensation structures;
- Personal information and financial information of either Party disclosed in connection with Project Green;
- Trade secrets as defined under the Colorado Uniform Trade Secrets Act (C.R.S. §7-74-102) and the federal Defend Trade Secrets Act (18 U.S.C. §1839);
- Written and verbal communications made in connection with Project Green, including through the Project Green Discord server, direct messages between Project Green members, and board meeting discussions.

The Parties agree that information shared in advisory board meetings, whether oral, written, or electronic, shall be presumed confidential unless expressly designated as non-confidential by the Disclosing Party.

1.2 Exclusions

Confidential Information does not include information that:

(a) Is or becomes publicly known through no breach of this Agreement by the Receiving Party;

(b) Was rightfully known to the Receiving Party prior to disclosure without restriction;

(c) Is independently developed by the Receiving Party without use of Confidential Information;

(d) Is rightfully obtained from a third party without restriction on disclosure;

(e) Is required to be disclosed by applicable law, regulation, court order, or governmental authority (subject to Section 2.3 below).

The burden of proof to establish any exclusion rests with the Receiving Party. The fact that individual elements of Confidential Information are publicly available does not make a combination or compilation of such elements public.

1.3 Intellectual Property ("IP")

"IP" means any and all inventions, discoveries, improvements, concepts, ideas, works of authorship, software, code, algorithms, designs, data, documentation, trade secrets, and any other intellectual property, whether or not patentable, copyrightable, or otherwise protectable.

1.4 Trade Secrets

"Trade Secrets" means any information that: (i) derives independent economic value from not being generally known or readily ascertainable; and (ii) is subject to reasonable measures to maintain its secrecy, as defined under C.R.S. §7-74-102 and 18 U.S.C. §1839. For purposes of this Agreement, information shall only be treated as a Trade Secret if it meets the statutory requirements at the time enforcement is sought.

1.5 Services

"Services" means all work performed by Knutsen for or on behalf of Project Green or the Company, whether as Board Member, independent contractor, consultant, or in any other capacity, including but not limited to advisory services under the Terms Memo and any separately contracted work engagements identified in Exhibit C.

1.6 Pre-Existing IP

"Pre-Existing IP" means any IP owned or developed by a Party prior to the Effective Date that is listed in Exhibit A (Knutsen's Pre-Existing IP) or Exhibit B (Company's Pre-Existing IP), as applicable.

1.7 Residual Knowledge

"Residual Knowledge" means general ideas, concepts, know-how, methodologies, and techniques that are retained in the unaided memory of a person who has had access to Confidential Information, provided that such person has not intentionally memorized specific Confidential Information for the purpose of retaining and subsequently using or disclosing it. Neither Party's confidentiality obligations under this Agreement restrict the use of Residual Knowledge; however, this Section does not grant a license under any patent, copyright, or other intellectual property right, nor does it permit the disclosure of specific, identifiable Confidential Information such as financial figures, customer names, pricing terms, source code, or proprietary formulas.

1.8 General Strategic Advice

For the avoidance of doubt, Confidential Information does not include general strategic advice, recommendations, or observations provided by either Party that reflect that Party's cumulative professional experience and judgment, even where such advice may be informed by patterns observed across multiple advisory engagements, provided that such advice does not reveal specific, identifiable Confidential Information of either Party.

---

2. Mutual Confidentiality Obligations

2.1 Non-Disclosure

Each Party, when acting as the Receiving Party, agrees to:

(a) Hold all Confidential Information of the Disclosing Party in strict confidence using no less than reasonable care, and no less care than it uses to protect its own confidential information;

(b) Not disclose Confidential Information to any third party without the prior written consent of the Disclosing Party;

(c) Use Confidential Information solely for the purpose of furthering the objectives of Project Green, including the performance of Services;

(d) Not use Confidential Information for personal gain, competitive advantage, or any purpose outside the scope of the Project Green relationship;

(e) Not copy, reproduce, or extract Confidential Information beyond what is strictly necessary for the stated purpose;

(f) Not reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code, structure, or design of any Confidential Information, including software, algorithms, or technical systems.

2.2 Permitted Disclosures

Either Party may disclose the other Party's Confidential Information solely to:

(a) Legal counsel, accountants, or financial advisors retained by the Receiving Party who are under a professional or contractual duty of confidentiality, and only to the extent necessary for legal, accounting, or financial advice;

(b) Employees and contractors of either Party who have a legitimate need to know in furtherance of Project Green and who are bound by written confidentiality obligations no less protective than those in this Agreement;

(c) Government or regulatory bodies as required by law — subject to the notice and cooperation obligations in Section 2.3.

For the avoidance of doubt, "permitted recipients" under clause (b) does not include investors, portfolio company personnel, or other advisory board members unless the Disclosing Party provides prior written consent. The Receiving Party shall identify any permitted recipient to the Disclosing Party upon reasonable written request and shall remain responsible for any breach of this Agreement by such recipient.

2.3 Legal Compulsion

If either Party is required by law, regulation, court order, or governmental authority to disclose any Confidential Information of the other Party, the compelled Party shall: (i) provide prompt prior written notice to the other Party (to the extent legally permissible) to enable that Party to seek a protective order or other appropriate remedy; (ii) cooperate reasonably with such efforts; and (iii) disclose only that portion of Confidential Information legally required, using commercially reasonable efforts to obtain confidential treatment for any disclosed portion.

2.4 Whistleblower & Government Reporting Carve-Out

Notwithstanding any other provision of this Agreement, nothing herein shall prohibit either Party from: (i) reporting possible violations of law or regulation to any governmental authority, including the U.S. Securities and Exchange Commission (SEC), the Department of Justice, or any other federal or state agency; (ii) making disclosures protected under whistleblower provisions of applicable federal or state law, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (15 U.S.C. §78u-6) and the Colorado Whistleblower, Anti-Retaliation, Notice, and Independence in Health Care Act; or (iii) filing a charge with or participating in any investigation or proceeding conducted by any governmental authority. Neither Party is required to notify the other prior to making any such report or disclosure.

2.5 Breach Notification

Each Party shall notify the other Party promptly — and in no event later than five (5) business days — upon becoming aware of any actual or suspected unauthorized disclosure, loss, or misuse of the other Party's Confidential Information. Such notice shall describe in reasonable detail: (i) the circumstances of the incident, (ii) the categories of Confidential Information affected, and (iii) the steps being taken to mitigate harm. The notifying Party shall cooperate reasonably with the other Party's investigation.

2.6 Term & Survival

Confidentiality obligations under this Agreement survive termination of the Board Member relationship and any future change in the Parties' arrangement, as follows:

General Confidential Information: obligations shall remain in effect for five (5) years from the date of disclosure of the applicable Confidential Information, or five (5) years from the termination of this Agreement, whichever is later.

Trade Secrets: obligations shall remain in effect for so long as the information qualifies as a Trade Secret under applicable law, with no fixed expiration. If the information ceases to qualify as a Trade Secret under §1.4, the five-year survival period for General Confidential Information shall apply from the date the information ceased to qualify.

2.7 Return or Destruction

Upon written request by the Disclosing Party or upon termination of the Board Member relationship, the Receiving Party shall within ten (10) business days: (i) return all tangible Confidential Information; (ii) permanently delete all electronic copies within the Receiving Party's reasonable control, including from local devices, cloud storage, and collaboration platforms; and (iii) certify such return and deletion in writing upon request. The Receiving Party acknowledges that copies may exist in automated backup systems, shared communication platforms (such as Discord), or email archives not within the Receiving Party's sole control; provided that: (a) the Receiving Party shall not intentionally access or use such copies for any purpose, and (b) any copies retained in such systems remain subject to all confidentiality obligations under this Agreement. One archival copy may be retained by counsel solely for legal compliance purposes, and such retained copy remains subject to all confidentiality obligations hereunder.

2.8 DTSA Immunity Notice

Pursuant to the Defend Trade Secrets Act (18 U.S.C. §1833(b)), each Party is hereby notified that:

(a) An individual shall not be held criminally or civilly liable under any Federal or State trade secret law for the disclosure of a trade secret that is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law; or (ii) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal.

(b) An individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (i) files any document containing the trade secret under seal; and (ii) does not disclose the trade secret, except pursuant to court order.

2.9 Scope of Disclosure

The Company shall limit Knutsen's access to Confidential Information to that which is reasonably necessary for Knutsen's advisory role. Knutsen shall not be deemed to have received Confidential Information solely by virtue of having access to general communication channels, repositories, or collaboration platforms (such as Discord) unless Knutsen actually accesses specific Confidential Information therein that is designated as confidential or that reasonably should be understood to be confidential. The Company shall not provide Knutsen with access to systems, channels, or repositories beyond those reasonably necessary for the advisory engagement without Knutsen's prior consent.

2.10 Information Barriers

Knutsen acknowledges that serving on multiple advisory boards or engaging in multiple ventures creates a risk of inadvertent cross-pollination of Confidential Information. Knutsen agrees to maintain reasonable information barriers to prevent the Company's Confidential Information from being disclosed to, or used for the benefit of, any other entity. Knutsen shall not disclose or use the Company's specific Confidential Information in connection with any other advisory engagement or business venture.

2.11 Oral Disclosures

Confidential Information disclosed orally or visually shall be identified as confidential at the time of disclosure and summarized in writing by the Disclosing Party within ten (10) business days. Failure by the Disclosing Party to provide a written summary within this period does not waive protection if the information would be clearly recognized as confidential by a reasonable person familiar with the advisory context. The following categories of information shall always be deemed Confidential Information regardless of marking or written follow-up: (a) financial statements and projections, (b) customer and client lists, (c) pricing and compensation structures, (d) product roadmaps and unreleased features, (e) personnel information, and (f) source code and system architecture.

2.12 Artificial Intelligence and Machine Learning

Neither Party shall input, upload, or otherwise process the other Party's Confidential Information using any generative artificial intelligence, large language model, or similar machine learning system that uses input data for model training or that stores user inputs in a manner accessible to third parties, unless: (i) the system is deployed within the Receiving Party's own controlled infrastructure; (ii) the system is accessed under a subscription or API agreement that includes a data privacy setting, policy, or contractual term that expressly prohibits use of input data for model training, and such setting or term is enabled or in effect at the time of use; (iii) the Disclosing Party has given prior written consent; or (iv) the Receiving Party takes commercially reasonable steps to prevent the Confidential Information from being retained, trained on, or disclosed by the AI system. For the avoidance of doubt, derived artifacts — including embeddings, vector representations, model weights, summaries, and log files

— generated from Confidential Information are themselves Confidential Information and subject to all obligations under this Agreement.

---

3. Intellectual Property

This Section 3 governs IP created in connection with Project Green. The Parties acknowledge that the confidentiality obligations in Section 2 are mutual and symmetric, while the IP assignment provisions below reflect the nature of the working relationship: Knutsen contributes work product to the Company under Exhibit C, and the Company retains ownership of such Project Green IP.

3.1 Pre-Existing IP

Each Party has identified pre-existing IP relevant to the Company's business or operations in the applicable Exhibit: Knutsen's Pre-Existing IP is listed in Exhibit A, and the Company's Pre-Existing IP is described in Exhibit B. Pre-Existing IP listed in the applicable Exhibit remains the sole property of the Party that owns it.

If Knutsen incorporates any of his Pre-Existing IP into work product created for the Company, Knutsen hereby grants the Company a non-exclusive, worldwide, royalty-free license to use, modify, and distribute such Pre-Existing IP, but only as incorporated into such Company work product. This license shall survive termination of this Agreement solely with respect to Company work product already delivered and accepted prior to termination. In the event of a Material Breach of this Agreement by the Company that remains uncured thirty (30) days after written notice, Knutsen may terminate this license upon written notice, provided such termination shall not affect end-user rights in products already distributed to customers prior to such notice.

For purposes of this Section, "Material Breach" means: (a) misappropriation of Knutsen's Confidential Information or Pre-Existing IP; (b) use of Knutsen's Pre-Existing IP outside the scope of the license granted herein; or (c) failure to pay undisputed compensation owed under Exhibit C within thirty (30) days of Knutsen's written invoice. Breach of general provisions (including Sections 7 and 8) shall not, standing alone, constitute a Material Breach for purposes of license termination under this Section.

For the avoidance of doubt, if the Company develops IP that is substantially derived from or based upon Knutsen's Pre-Existing IP disclosed in connection with advisory Services — as distinct from publicly available standards, frameworks, or methodologies — such development shall be treated as an incorporation of Pre-Existing IP for purposes of this Section, and the license terms herein shall apply.

Any IP created by Knutsen that is not listed in Exhibit A and was created specifically at the written direction of the Company as a deliverable under Exhibit C is subject to Section 3.2. IP developed by Knutsen independently, outside the scope of Exhibit C, shall not be presumed to belong to the Company regardless of its relevance to the Company's business.

3.2 Assignment of Knutsen's Contributions

Any IP created, developed, or contributed by Knutsen specifically at the written direction of the Company in connection with the performance of Services under Exhibit C, and actually delivered to the Company in tangible form, is hereby irrevocably assigned to the Company (or to Michael Leavenworth as Founder prior to formal incorporation). This assignment is worldwide, royalty-free, and covers all patent rights, copyright rights, trade secret rights, and all other intellectual property rights. Knutsen waives any moral rights in such contributions to the fullest extent permitted by law. For the avoidance of doubt, this assignment does not apply to Pre-Existing IP identified in Exhibit A, except to the extent of the license granted in Section 3.1.

Notwithstanding the foregoing, this assignment shall not apply to any IP that Knutsen develops: (i) entirely on his own time; (ii) without direct use of the Company's Confidential Information, equipment, or resources; and (iii) without direct use of work product created for the Company under this Agreement. Knutsen shall have the burden of demonstrating that any disputed IP meets all three criteria.

The Parties have identified specific contracted work-for-hire engagements in Exhibit C ("Contracted Work-for-Hire Schedule"). All deliverables produced under Exhibit C are works made for hire to the maximum extent permitted by law and are owned exclusively by the Company. To the extent any such deliverable does not qualify as a work made for hire under applicable law, Knutsen hereby assigns all right, title, and interest in such deliverable to the Company.

3.3 Company IP Ownership

The Company retains sole and exclusive ownership of all IP developed by or on behalf of the Company prior to or outside of this Agreement, including but not limited to the Project Green software platform, AI architecture, and all associated documentation, as identified in Exhibit B. Nothing in this Agreement transfers any Company IP to Knutsen.

3.4 Further Assurances

Knutsen agrees to execute any documents and take any actions reasonably requested by the Company to perfect, record, or enforce the Company's ownership of assigned IP, at no additional cost to Knutsen. If Knutsen fails to execute such documents within ten (10) business days of written request, Knutsen hereby appoints Leavenworth (or the Company) as attorney-in-fact, coupled with an interest, solely to execute IP assignment and registration documents directly related to New IP created and delivered under Exhibit C of this Agreement. This power of attorney does not extend to Pre-Existing IP listed in Exhibit A, IP developed by Knutsen on his own time under Section 3.2, or any IP developed outside the scope of Exhibit C.

Each deliverable under Exhibit C shall be deemed accepted upon the earlier of: (i) the Company's written acknowledgment of receipt, or (ii) thirty (30) days after delivery without written objection by the Company. The power of attorney in this Section applies to all IP contained in accepted deliverables.

3.5 No License to Knutsen

Nothing in this Agreement grants Knutsen any license, right, or interest in any IP owned by the Company or the Founder, except as expressly set forth in the Terms Memo or a separate written agreement signed by both Parties.

3.6 Future Licensing

The Parties acknowledge that Knutsen may possess tools, frameworks, or methodologies (including Pre-Existing IP listed in Exhibit A) that could be commercially valuable to the Company beyond the scope of this Agreement. Nothing in this Agreement precludes the Parties from negotiating a separate licensing or revenue-sharing arrangement for such tools in the future. Any such arrangement shall be documented in a separate written agreement signed by both Parties.

3.7 Federal IP Protections

The Parties acknowledge that Trade Secrets disclosed under this Agreement are protected under the Defend Trade Secrets Act (18 U.S.C. §1836 et seq.). In the event of willful or malicious misappropriation of Trade Secrets, the Disclosing Party may seek exemplary damages of up to two times (2x) actual damages and attorney's fees as provided under 18 U.S.C. §1836(b)(3) and C.R.S. §7-74-104.

3.8 Compensation for Additional IP Contributions

To the extent the Company requests Knutsen to create, contribute, or assign IP beyond the deliverables identified in Exhibit C, any such contribution shall be subject to separate written compensation negotiation prior to Knutsen undertaking such work. No additional IP contribution shall be deemed made under this Agreement without a signed written addendum specifying the scope of work and compensation. The revenue share set forth in the Terms Memo does not constitute compensation for IP contributions beyond Exhibit C.

The Company acknowledges that Knutsen's advisory Services under the Terms Memo are limited to periodic strategic guidance and board participation. Requests for specialized technical work, research, or deliverables beyond this scope shall be subject to this Section 3.8.

3.9 Advisor Work Product

Any advice, recommendations, analysis, strategies, or other work product provided by Knutsen in the course of advisory Services under the Terms Memo — as distinct from contracted deliverables under Exhibit C — shall be owned by Knutsen ("Advisor Work Product"). For the avoidance of doubt, Advisor Work Product is not Confidential Information of the Company, and Knutsen may provide similar or identical advice, recommendations, or strategies to other parties, provided that Knutsen does not disclose specific Confidential Information of the Company in doing so. This Section does not apply to deliverables created under Exhibit C, which are governed by Section 3.2.

---

4. Privacy

4.1 Personal Data

Each Party agrees to handle any personal data of the other Party or of the Company's customers, employees, or contractors in compliance with applicable privacy laws, including but not limited to the Colorado Privacy Act (C.R.S. §6-1-1301 et seq.) and applicable federal law.

4.2 No Unauthorized Collection

Neither Party shall collect, store, or process personal data obtained through the performance of Services for any purpose other than fulfilling those Services. To the extent Confidential Information includes personal data as defined under applicable privacy laws, such data shall be handled in compliance with all applicable data protection and privacy laws, which shall take precedence over any conflicting provisions of this Agreement.

---

5. Conflicts of Interest

Knutsen shall promptly disclose to Leavenworth any actual or potential conflict of interest that may arise from the performance of Services, including any engagement with a directly competing business. Given the advisory-only, non-fiduciary nature of the current role as described in the Terms Memo, this disclosure obligation is limited to conflicts that could reasonably impair Knutsen's ability to provide independent advice or perform Services. If Knutsen's role evolves beyond advisory (e.g., to officer, employee, or co-founder), the Parties agree to negotiate enhanced conflict-of-interest provisions appropriate to the expanded role.

---

6. Remedies

6.1 Injunctive Relief

Each Party acknowledges that any actual or threatened breach of this Agreement may cause irreparable harm for which monetary damages would be an inadequate remedy. Accordingly, the non-breaching Party is entitled to seek equitable relief, including injunction and specific performance, without the requirement to post bond or prove actual damages, in addition to all other remedies available at law or in equity. The Parties acknowledge that a court of competent jurisdiction retains full discretion over the granting of equitable relief.

6.2 Damages

In addition to injunctive relief, the non-breaching Party may recover all actual damages caused by any breach of this Agreement. For the avoidance of doubt, no limitation on damages — including indirect, special, incidental, or consequential damages — shall apply to breaches of the confidentiality or IP provisions in this Agreement. In cases of willful or malicious misappropriation of Trade Secrets, exemplary damages of up to two times (2x) actual damages may be sought under the DTSA and Colorado UTSA.

6.3 Attorney's Fees and Costs

The prevailing Party in any action, suit, or proceeding arising out of or relating to this Agreement, including any appeal, shall be entitled to recover its reasonable attorney's fees, court costs, and all other litigation expenses, including but not limited to expert witness fees, e-discovery costs, and fees incurred in establishing entitlement to or the amount of fees and costs.

---

7. Good Faith & Shared Intent

7.1 Collaborative Relationship

The Parties acknowledge that this Agreement is entered into in the spirit of a collaborative and mutually beneficial relationship. Both Parties intend that the confidentiality and IP provisions herein protect their respective legitimate interests while enabling productive cooperation on Project Green.

7.2 Role Evolution

If Knutsen's role evolves from advisory Board Member to a more active operational or equity-bearing capacity (including but not limited to co-founder, CTO, or employee), the Parties agree to revisit and, if appropriate, negotiate revised IP, compensation, and governance terms appropriate to the expanded role, with the assistance of legal counsel.

7.3 Pace of Development

Both Parties acknowledge that Project Green is in an early stage of development and that the scope of Services, IP contributions, and the commercial relationship may evolve significantly. This Agreement is designed to provide foundational protections while preserving flexibility for the Parties to negotiate additional arrangements as the relationship matures.

---

8. General Provisions

8.1 Governing Law & Jurisdiction

This Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to its conflict-of-laws principles. Any dispute arising out of or relating to this Agreement shall be resolved exclusively in the state or federal courts located in Delaware. Each Party irrevocably submits to the exclusive jurisdiction of such courts, waives any objection to venue or jurisdiction, and waives any claim of forum non conveniens. Any action filed in violation of this Section may be transferred or dismissed on the basis of this clause.

8.1A Mediation

The Parties agree to attempt in good faith to resolve any dispute arising under or relating to this Agreement through mediation before initiating litigation. Mediation shall be conducted by a mutually agreed-upon mediator, with costs shared equally. If the Parties cannot agree on a mediator within fifteen (15) days of a written request for mediation, either Party may proceed to litigation under Section 8.1. Nothing in this Section prevents either Party from seeking injunctive relief under Section 6.1 without first mediating.

8.1B Waiver of Jury Trial

EACH PARTY IRREVOCABLY WAIVES THE RIGHT TO TRIAL BY JURY IN ANY ACTION, SUIT, OR PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT.

8.2 Entire Agreement

Together with the Terms Memo dated February 22, 2026, this Agreement constitutes the entire agreement between the Parties with respect to confidentiality and intellectual property, and supersedes all prior discussions, understandings, or agreements on these subjects.

8.3 Amendment

This Agreement may be amended only by a written instrument signed by both Parties.

8.4 Severability

If any provision of this Agreement is held invalid or unenforceable, that provision shall be modified to the minimum extent necessary to make it enforceable, and the remaining provisions shall continue in full force and effect.

8.5 Waiver

Failure by either Party to enforce any provision of this Agreement shall not constitute a waiver of future enforcement of that provision.

8.6 Counterparts & Electronic Signatures

This Agreement may be executed in counterparts, each of which shall be deemed an original. Electronic signatures shall be deemed valid and binding to the same extent as original signatures under the Delaware Uniform Electronic Transactions Act (6 Del. C. §12A-101 et seq.) and the Electronic Signatures in Global and National Commerce Act (E-SIGN Act, 15 U.S.C. §7001 et seq.).

8.7 Notice

Notices under this Agreement shall be delivered via email to the addresses on record between the Parties. Notice shall be deemed effective upon the earlier of: (i) actual receipt, (ii) confirmation of delivery by the sending Party's email system, or (iii) one (1) business day after sending to the email address on record, unless the sending Party receives an automated non-delivery notification.

8.8 Relationship of the Parties

Nothing in this Agreement creates a partnership, joint venture, employment, or agency relationship. Knutsen remains an independent advisory Board Member as described in the Terms Memo, unless and until a separate written agreement establishes a different relationship.

8.9 Headings

Section headings are for convenience only and shall not affect the interpretation of this Agreement.

8.10 Assignment to Entity

Upon incorporation of the Delaware C-Corporation, this Agreement shall be automatically assigned to and assumed by the Company, and all rights and obligations of Leavenworth hereunder (in his capacity as Founder) shall vest in the Company. Knutsen consents to such assignment without further action. Following such assignment, references to "Leavenworth" in his Founder capacity shall be deemed to refer to the Company.

8.11 Change of Control

In the event of a Change of Control of the Company — defined as any merger, acquisition, sale of substantially all assets, or transfer of more than fifty percent (50%) of voting equity to a third party — the Company shall notify Knutsen in writing within ten (10) business days of closing. Knutsen may terminate this Agreement upon fifteen (15) days' written notice following receipt of such notification. Upon such termination, Knutsen's confidentiality obligations survive as set forth in Section 2.6, but no new Confidential Information shall be deemed disclosed after the termination date.

8.12 No Warranty

Neither Party makes any representation or warranty, express or implied, as to the accuracy, completeness, or fitness for a particular purpose of any Confidential Information disclosed under this Agreement. Each Party acknowledges that it shall rely solely on its own judgment and assessment regarding such information.

Notes

This Agreement is binding upon execution by both Parties.

Compensation, board duties, and termination terms remain governed by the Terms Memo dated February 22, 2026.

Prior to formal incorporation of the Delaware C-Corp, "Company" obligations vest in and are enforceable by Michael Leavenworth personally as Founder.

Both Parties' whistleblower rights under federal and state law are preserved and cannot be waived by this Agreement.

The DTSA immunity notice in Section 2.8 is provided pursuant to 18 U.S.C. §1833(b)(3) and is a condition precedent to either Party's right to seek exemplary damages under Section 6.2.

The confidentiality obligations in Section 2 are mutual and symmetric. The IP assignment provisions in Section 3 are directional, reflecting Knutsen's contracted contributions to the Company under Exhibit C.

Exhibit C identifies specific contracted work-for-hire engagements (6 hours, $420 total). Deliverables under Exhibit C are owned by the Company.

The Knutsen v3 redlines and Leavenworth v4 amendments are accepted in full. The v5 redlines (March 17, 2026) reflect three modifications verbally agreed by both Parties: updated AI/ML permitted-use standard (§2.12), reversion of the personal time carve-out to "direct use" standard (§3.2), and removal of the Exhibit C-adjacent conflict consent requirement (§5).

Exhibit A: Knutsen Pre-Existing IP Schedule

Knutsen identifies the following pre-existing intellectual property owned or developed prior to the Effective Date of March 6, 2026:

#	Description	Date Created (approx.)	Ownership Status
1	Information security and corporate policy framework for SMBs (CyberKit v2) — 12 security policies, SOC 2 / ISO 27001 mappings, implementation checklists, Gumroad-ready packaging. Complete, not yet publicly released.	Prior to February 2026	Owned solely by Kristopher Knutsen
2	Proprietary automated trading application. Includes trading logic, execution infrastructure, and related code and documentation.	December 2025 – present	Owned solely by Kristopher Knutsen

Knutsen represents that this schedule is complete as of the Effective Date. Any IP relevant to Project Green that is not listed herein and was not created at the written direction of the Company under Exhibit C is presumed to be Knutsen's independent IP and is not subject to assignment under Section 3.2.

Initials (Knutsen): KDK Date: 03/17/2026
Initials (Leavenworth): _____ Date: _____

Exhibit B: Company Pre-Existing IP

The Company identifies the following pre-existing intellectual property owned or developed prior to or outside of this Agreement:

#	Description	Status
1	Project Green software platform — codebase, agent architecture, proprietary AI digital twin framework, and all associated technical infrastructure.	Active development, September 2025 – present
2	Project Green documentation — product requirements, business plans, go-to-market strategy, investor materials, and technical specifications.	Confidential
3	Project Green brand and identity — name, logo, trademarks, marketing materials, and domain registrations.	Confidential

Initials (Knutsen): KDK Date: 03/17/2026
Initials (Leavenworth): _____ Date: _____

Exhibit C: Contracted Work-for-Hire Schedule

The following engagements are agreed upon as contracted work-for-hire. All deliverables produced under this Exhibit are works made for hire owned exclusively by the Company. Knutsen's hourly rate is $70/hr.

#	Deliverable	Hours	Amount
1	Information Security & Compliance Framework Research — cybersecurity controls mapping, HIPAA/NIST alignment analysis, and AI platform compliance comparison for accounting firm use cases.	5 hrs	$350
2	AI Game Theory Legal Analysis — legal and regulatory landscape review of AI-driven game theory frameworks in financial services and related sectors.	1 hr	$70

Total: 6 hours — $420.00

Payment shall be made within thirty (30) days of Knutsen's submission of an invoice for completed deliverables. Completion of each deliverable constitutes Knutsen's assignment of that work product to the Company pursuant to Section 3.2.
